A black and white photograph of the Hotel de Ville in New Orleans. The building is a large, multi-story structure with a prominent curved portico on the left side. The portico has a series of white rocking chairs arranged in a row. The building features many windows, some with decorative frames. In the foreground, there are some plants and a paved area. The overall scene is a classic representation of a grand hotel in a historic city.

An aerial photograph of a city, likely Beijing, with several regions highlighted by dashed white circles and numbered 1 through 5. The regions are distributed across the city: Region 1 is in the north-central area near the airport; Region 2 is in the north-east; Region 3 is in the south; Region 4 is in the east; and Region 5 is in the south-east. The map shows various landmarks, including the Great Wall of China in the north and the Olympic Stadium in the center.

## Queenstown

Queenstown is a small town in the south of New Zealand. It is located on the shores of Lake Wakatipu, which is one of the largest lakes in the country. The town is known for its scenic views and outdoor activities. The population of Queenstown is approximately 18,000 people. The town is situated at an altitude of about 300 meters above sea level. The climate is generally mild, with temperatures ranging from 10°C to 20°C. The town is a popular destination for tourists, especially during the summer months. The town is also a good base for exploring the surrounding area, which includes some of the most beautiful scenery in New Zealand.
